Web Development Bootcamp

July 2022

Education

University of Central Florida

Bachelor of Science in Art

Education – 2012

Valencia Community College

Associate of Arts – 2007

About Me

Web Developer with a background in Art Education looking to build a more intuitive user experience on the web. With each project I create, the aim is to gain more knowledge about programming, software development, engineering, and the benefits of each user experience. Excited to spend time learning more about building better experiences for users and leveraging skills to help a high-level team.

Work History

OCPS – Art Teacher

2012 – Present

Communication skills

Providing written and verbal feedback. Interacting with parents, students, and the administration. Running meetings. Organizing teams.

Problem-solving skills

Successfully supported diverse learners - students with special needs, dual language learners or gifted and talented students.

Social and emotional intelligence skills

The inability to manage internal stress levels and cope with the demands of the profession.

Self-motivation and time management skills

Managing time to create daily lesson plans, oversee school events and after school events, getting paperwork ready for meetings and coordinating art shows and school wide decorations.

Programming Skills

HTML, CSS, JavaScript, Node.js, Express.js, Bootstrap, GitHub, Document Object Model, Object-Oriented Programming, JQuery, MongoDB, MERN Stack, GraphQL, SQL, NoSQL, Git Bash, VS Code, Insomnia, Jest
